

PROFESSIONAL SUMMARY:

Website Designer and Frontend Developer with 3.5 years of professional experience creating responsive, modern, and user-friendly websites. Skilled in HTML5, CSS3, Bootstrap, WordPress, Elementor, Figma-to-HTML conversion, and responsive UI implementation. Experienced in building business websites, landing pages, and membership-based web interfaces, with a strong focus on clean layouts, mobile responsiveness, usability, and pixel-perfect implementation.

CORE SKILLS:

Frontend:

HTML5, CSS3, Bootstrap, Responsive Web Design

CMS & Tools:

WordPress, Elementor, Website Customization

Design:

Figma, Canva, PSD/Figma to HTML

Specialization:

Website Design, Landing Pages, UI Layout Optimization, Responsive Fixes

PROFESSIONAL EXPERIENCE:

Senior Frontend Developer / Website Designer — XP Wallet

2024 – Present

- Developed and maintained responsive web interfaces with a focus on usability and clean UI.
- Implemented modern website layouts based on Figma designs and project requirements.
- Worked on responsive design, frontend improvements, and cross-device layout fixes.
- Maintained structured HTML/CSS code and collaborated with team members to deliver projects on time.

Frontend Developer / Website Designer — I Developing Solutions

2022 – 2024

- Developed 15+ responsive websites using HTML, CSS, and Bootstrap.
- Converted 20+ Figma designs into pixel-perfect, responsive web layouts.
- Created landing pages and business websites with mobile-first responsive structures.
- Improved UI responsiveness and resolved layout issues across different screen sizes.

RELEVANT PROJECT EXPERIENCE:

Hanover and Tyke

Implemented responsive website structure using HTML, CSS, and Bootstrap; assisted with website content and UI updates.

Arowwai Industries

Improved UI layout and mobile responsiveness; structured clean HTML/CSS and worked on frontend design improvements.

Membership-Based Website

Developed frontend pages and responsive layouts for a membership-based website.
